Students Satisfaction Survey

114 students across all classes participated in the students' satisfaction survey consisting of 15 questions covering various aspects of the teaching- learning process, evaluation process, mentoring, co-curricular and extra-curricular activities, personality development and employability enhancement initiatives undertaken by the college. A link of the google form was provided to the students and responses were sought. The graphical analysis of the responses is already given above. Here is a brief paragraph regarding the interpretation of the data.

More than 97% respondents are satisfied with the performance of the college regarding teaching-learning process and evaluation. The students acknowledged the and role of their mentors and follow-up taken by them. They strongly approved of the encouragement provided by the teachers for participation in extra-curricular activities. A similar response is seen regarding the use of evaluation methods. 94.73% respondents felt that the teachers used student centric methods in teaching-learning. An equal number of respondents are of the opinion that internal evaluation is undertaken regularly. We reiterate our pursuit of excellence and plan to undertake / devise newer means to enhance our score furthermore in these areas.

95.61% respondents have rated the overall quality of teaching-learning process as good and acknowledged that the college provides them with multiple opportunities to learn and grow.
