

7.1.5 Green Campus Initiatives

The Institutional Initiatives For Greening The Campus are as Follows:

1. Restricted Entry of Automobiles

Since most of our students hail from the nearby villages, they use state transport to travel to and from college every day. Since the college is within walking distance from the bus stand, students prefer to walk to the college. Some of faculty too use state transport means.

2. Use Of Bicycles / Battery Powered Vehicles

Local students and the students coming from nearby places come on bicycles. Students are encouraged to use bicycles.

3. Pedestrian Friendly Pathways – N/A

4. Ban on Use of Plastic

To ensure plastic free college campus, use of plastic is banned. The notice regarding the ban is displayed at the entrance of the college.

5. Landscaping with Trees and Plants

The college has maintained a garden in the campus. It is maintained by the concerned peons and the gardener appointed by the institution. Teachers have planted trees on their birthdays and on Tree plantation days in and off campus. Some medicinal trees and spice trees have planted as well in the college garden. Some pots too are maintained in and outside the building. The college has also planted trees outside campus as per state directives.

In 2020-21, the college appealed the faculty, students to plant trees on the World Environment Day. Some faculty planted saplings of medicinal plants in the campus.

The programmes in the college are inaugurated by watering a plant.

6. Environment Science having field work component is a compulsory course for B.A II and B.Com II as a part of curriculum to instill environment consciousness in students.
